Press Release

Napoleon Power & Light is introducing their **Automated Outage Reporting System.**

NPL customers can now call **855-646-1701** to report a power outage at their residence or business. This automated system will immediately alert dispatchers that an Electric Department service crew is needed. Customers are advised to update their contact phone numbers with the City of Napoleon Utilities Department at 419-599-1235. A valid phone number will allow the system to automatically match a caller to their service address.

Help us keep the lights on through the storm season ahead.

Napoleon Power & Light, your Public Power Partner.
