PRESS RELEASE

Mosquito Spraying

The City of Napoleon will start mosquito spraying the week of June 8, 2020. The spraying will continue through the months of June, July, and August and possibly into September if necessary.

The mosquito spray is an odorless, fast acting, low toxicity chemical; however, individuals with respiratory problems may want to close their doors and windows.

Spraying each evening will begin at approximately 8:00 PM on the following weekdays:

- Tuesday – Areas south of Woodlawn Avenue and west of Webster Street.
- Wednesday – Areas north of Woodlawn Avenue and west of Oakwood Avenue including Maple, Fillmore, Shelby, Hobson, Monroe and East Clinton Streets.
- Thursday – Areas east of Oakwood Avenue, East Riverdowns Park and all areas south of the river.

Spraying will not occur if winds are over 10 mph, if it is raining or if the temperature is below 60 degrees.

Please contact the Operations Department between 7:00 AM and 3:30 PM at 419-599-1891 with any questions regarding this matter.
